Subject: Re: Treasure Island

Loren, I didn't see in any of the emails that there was a question. Was that in the voicemail I didn't get? My only concern is that the navy explicitly included us in their statement. And that we had delisted some portion of the site in 1999.

I agree. We should send Mr. Patterson a short respond and refer him to the state as this isn't a NPL site and the state has the lead.

Enrique,

John forwarded your voicemail message from Andre Patterson as well as the emails he and Felita Sample sent you. I am including Nadia Burke in this email as she is the RPM for this site. As you know, we have dealt with Mr. Patterson many times in the past and have not had much luck responding to his concerns. In my experiences with him he has either not returned my calls or hung up on me. This is a state-lead site so I will have Nadia check in with her counterpart at DTSC and I will check with my counterpart just to get updated on recent activity at the site. I agree with you that perhaps a formal written response might be a good approach, I think it would have to be very carefully worded. I will keep you all posted with any information I receive from DTSC.

Loren
